But one is grateful that this is one plant which was allowed to grow and flourish in the gardens, instead of being considered to be just another weed, which had this habit of taking over large coppices, which were rich in natural humus. This very popular fruit, cultivated globally is now known as the garden or just a strawberry. It belongs to the *Fragaria* genus of plants, which is made up of other fruits which are not berries, but are a number of aggregate fruits. Thanks to its very attractive red and bright color, strawberry aroma, sweetness and juicy flavor, is it a surprise that there is no fruit like the strawberry for adding style and distinction to your garden patch. Just imagine ice creams, fruit juice, milkshakes, chocolates and pies, which have not been flavored with the delicate flavor of a strawberry. In fact artificially produced strawberry flavors are used extensively in lip glosses, lip balms and other beauty products. Strawberries, especially the Woodland strawberries are supposed to have originated in Europe, because references to these sweet delicious berries have been found in ancient..
